DETAILED ACTION

1. This action is responsive to applicant's communication filed on 02/26/2004.
2. Claims 1-32 are pending and presented for examination.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on January 18, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, it has been placed in the application file. The information referred to therein has been considered as to the merits.

Drawings

4. The drawings are objected to because Figs. 4, 5, 6 and 9 are not in compliance with the drawings rule. (See MPEP rule 37 CFR 1.184(h)). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not

accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 13, 16, 17, 18 and 30 recite the limitation “initiating subscription for a new member at an initiator, wherein the initiator is an active member in the replication group” on step (a). It is unclear to the examiner whether at an initiator means a location or an agent or person. Examiner suggests applicant(s) to replace “**at**” before an initiator with **–by–** in order to be consistent with the phrase “wherein the initiator is an active member in the replication group”.

As per claims 18 and 30, the preamble recites “a computer readable **medium** with program **instructions** for member initialization to an asynchronous data replication group in a database system”, comprising in the body steps (a) through (e).

Claim recites that either instructions or medium/instructions “comprises” steps is inconsistent since instructions means a static set or list, not a sequence of action represented by the steps. This inconsistency renders the claim indefinite. Applicant(s) is/are advised to rewrite or amend the claims to be consistent with the program instructions.

As per claims 2-12, 14-15, 19-29 and 31-32, they at least rejected for their dependencies, directly or indirectly, on the rejected claims 1, 13, 18 and 30 above.

Allowable Subject Matter

7. Claims 1-32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
